PROBE OF EXPLOSION CONTINUES

Detective Flynn is Confident
Criminals Will Be
Apprehended

(By Associated Press)
NEW YORK, Sept. 18.—Confidence that the American anarchist fighters, who it is believed now, caused the disastrous bomb explosion in Wall street Thursday, will be brought to justice, was expressed today by William Flynn, chief of the bureau of investigation of the department of justice. Flynn, who has charge of the federal investigation, said he was certain from the similarity of circumstances found in a mail box near Wall street at the time of the explosion, to those found at the scene of the various bomb explosions of June, 1919, that the same crowd of terrorists were responsible for both outrages. "We had solved the mystery of last year's bombing, but were frustrated from bringing them to justice when Alfredo Salasgo, whom we were detaining in a New York office, jumped from the fourteenth-story window and committed suicide," said Flynn. "That tipped our hand and the crowd got safely out of the country. Turn bits of paper were the only evidence we had last year. Now we have whole circulars dropped in a mail box presumably by the man who set off the bomb. In addition there are the horse and broken bits of wagon in which the bomb was placed."

Strike in Gold Zone Holds Much Interest

The finding of the rich ore-body on the 700-foot level of the Gold Zone, in the Divide district, means more to Tonopah and that section than during the boom days of Divide. It proves that rich orebodies underlie that district and that depth is required to unearth them. The new find in the Gold Zone which is attracting the attention of the mining world was made on the 700-foot level in the northwest crosscut from the shaft, which is now in 200 feet. The new vein entered the vein supposed to be the east segment of the big Divide vein. This vein runs parallel to the Divide vein, and the company has drifted on the ore shoot 10 feet, drifting along the footwall. A contract is being prosecuted to the 700-foot level, which was made on the 700-foot level in the Gold Zone. WILLIAM BRYDEN PASSES AWAY

William S. Bryden, one of the pioneer residents of Tonopah and Nye counties, passed away at 2 o'clock this afternoon. His death was caused by general debility, he having been ill for the past few years. The deceased came to Nevada from Ohio, Pa., and went to Belmont, then the county seat of Nye county, in 1880, and was elected county clerk, which he held for one term, and then became deputy county clerk and deputy auditor and recorder, which positions he filled until 1900. He then went to Coeur d'Alene and engaged in the general merchandise business, which he conducted until 1901, when he removed to this city, residing here since that time. Mr. Bryden during his life had collected one of the most complete exhibits of relics of this county, having one from all times in the county back to the time he came to this county, and copies of every power and paper printed within the city. He took great pride in these and was well informed on the history of the county. He was noted for his loyalty at all times to his old friends and acquaintances. His only known relative is a sister in Pittsburgh, whose address cannot be found owing to the fact that she signed her letters with her given name only.

The demise of "Billy" Bryden will be deeply mourned by every old-time resident of Nye county and the people living in this city. His word once given was always kept, and his life's transactions were honorable. A noble man has gone to his just reward.

Johnson and his attorney appeared before Judge Carpenter today to file a writ of error and appeal of the sentence, which is set for the 20th. Johnson would not consent to the filing of a bond pending a hearing of the appeal, he decided to drop the fight and go to prison.
